Congratulations to Covington! They were named one of the 20 Most Beautiful Main Streets in America by Reader's Digest!! This is what the Digest had to say:

Located just across the Ohio River from Cincinnati, Covington offers a revitalized Main Street to visitors and locals. Anchored by the Carroll Chimes Bell Tower, Main Street offers a mix of Midwestern and Southern charm in an area that is seeing an influx of independent businesses. Brimming with beautiful Italianate brick buildings and public art, Covington's Main Street is a great day trip.

Of course we know there is a lot to do and you can stay longer than a day and check out Hotel Covington for an overnight visit. However, this week-end might prove hard to get a room as the Bridge Folk Festival is happening!

Great turnout for Uncorked in Maysville! They even set up tv's to watch Justify make history!
