Kentucky: Harden Coffee

via hardencoffee.com

College students are willing to drive way out of their way just to get their coffee fix from **Harden Coffee** in Campbellsville, according to a coffee-loving college student in *The Odyssey*. "It's delicious and their latte art is amazing. The location is rustic and the employees are so kind. If you can't tell, this is my favorite coffee

[Harden Coffee](#) was written up in Reader's Digest & The Odyssey recently. Campbellsville Main Street is proud to have Harden Coffee in our Downtown.

Congratulations to former Cynthiana Main Street director, Karey Riddell ! She has opened the Burley Market and Café in downtown Cynthiana transforming not only a building, but the block. This corner has been transformed over the last few months including buildings that are in the restoration process that were purchased by the current director, Stephanie Burden. Stephanie's mom has also purchased a building and has a booming retail business. Main Street transforms your community in many ways. Thank you to these two amazing women for their passion and devotion to their hometown!

From Danville: So happy to see that this beautiful piece of art and history has found its home on 2nd Street in downtown Danville! Make sure you come down and see it firsthand. It's amazing! We were so proud and honored to have ARCY paint this portrait of Bunny Davis during Soul of 2nd Street Festival last year.

Thanks Cottage Interiors for opening your parking lot up for this special work of art!

The Kentucky Oral History Commission recently published a [Women in Politics and Government Field Guide](#). The time has passed to do oral histories with those first women voters, but we can celebrate the women who have participated in the political process since then. To do so, the Kentucky Oral History Commission invites people to collect oral histories from such Kentucky women as poll workers; community advocates and policy influencers; those who have held local, political offices; and those who have held state political office. You can request a workshop on collecting women's histories through oral history from [Sarah Schmitt](#), KOHC administrator.
