Sidewalks are certainly something we discuss a lot in Main Street. Here is an opportunity for you and your city officials to learn more about how to make them safe with budget friendly techniques. This is a free workshop, but Registration is required.

Well-maintained sidewalks keep your residents safe by reducing costly trips and falls.

We will illustrate various sidewalk maintenance programs, show proposals and mapping examples for multi-year maintenance projects for Kentucky cities, and illustrate budget-conscious techniques for sidewalk repair. We'll talk about the common types of hazards/repairs and maintenance items that affect those with disabilities, as well as the ADA guidelines for maintenance and repair of sidewalk infrastructure.

REGISTRATION IS FREE AND LUNCH IS PROVIDED.

Presenters: Jessica Spriggs and Shayne Lingg

Who should attend? City officials committed to keeping their sidewalks safe.
