It is hard to believe that tomorrow will be the first day of autumn! Fall is looking a bit different but lots of great things continue across the Commonwealth. It's time for pumpkins and squash at the downtown markets and chili is starting to appear in our downtown restaurants and sweaters and socks are appearing in our retail shops. It's always a great day to find all you need in your Main Street community!

Interested in having a pop-up event? Check out this great tool from our partners at AARP. Your Main Street can also find a lot of valuable resources on the National Main Street web-site. Many are only available to those who are members of the national network. Just one more tool available to Kentucky Main Street communities.

Lots of downtown cleanups are taking place this fall afternoon being postponed from the spring. Communities are working together to make their space the best place. Above is London and you will see former MS director Chris Robinson to the far left giving directions. Chris currently serves as the London tourism director. Below Cynthiana participated in the Main Street clean-up with our partners Bluegrass Greensource.

Through shared language, standards, points of excellence and challenge points, individuals and organizations are utilizing Artists Thrive to change conditions in which artists live and operate. The Summit is an annual experience that pushes boundaries on what it means to thrive as an artist.

The September 30th deadline to respond to the 2020 Census is quickly approaching but there is still time to encourage your community to fill it out!

It is vital to our nation's Main Streets and their communities that as many people as possible complete the 2020 Census. The data collected from the census will impact communities for the next decade, from federal funding to political representation to accurate data about the people in your town. #shapeyourfuture

Murray Main Street and KYMS are thrilled that these downtown building owners are taking pride in their buildings and using this time during COVID to do some necessary maintenance. This is the third building on S. 4th Street to receive facade maintenance.

Note: they are not painting stone. The facade is a permastone material (concrete stamped to look like stone) that was installed over the original facade in the late 50s-early 60s. A little bit of maintenance and the building will look fresh!

We look forward to seeing the completed project.
