Main Street Monday!

Tomorrow, August 1st

Bring a chair, a friend, and an appetite!

Enjoy an evening of food, cold drinks, and a lot of fun and laughter!

Did we mention there are door prizes and giveaways

The conference "Convergence, Health, and Economy" that I spoke at last week was wonderful. It was held in Denver, Co and was a partnership between Project for Public Spaces & the National Main St. Center, funded by the Ann & Robert Bass Foundation. I will share more things with you next week that I found in Colorado and Wyoming that we can R&D.

Aside from our usual work, everyone should visit this area. It is amazingly beautiful in a much different way than the beauty of Kentucky.

This will be a hard week for KHC. I am sad today to say "Happy Trails" to our guy, Roger Stapleton who is retiring. Today is his last day at KHC. If you have been in KYMS for sometime you know him well. For newer KYMS folks, Roger was the state director when I and others began our Main Street careers. I have called him Rescue Roger since I arrived as he is the one I called to fix everything that I couldn't figure out. We will certainly miss that hearty laugh and the lead off for our Happy Birthday song as no one else can! Roger's daughter Claire will be starting ECU in two weeks, so lots of changes for him.

Another loss for the site development department and our agency will come on Friday. It will be the last day for our staff architect, Jen Spangler Williamson, whom many of you have worked closely with on projects in your communities either for tax credits or design review.

We wish her well on her new adventure with Inside Out Design.

Heart of Danville Distrx App is Up and Running

At the Heart of Danville we are constantly looking for new ways to help improve and promote the downtown experience, from events to businesses. As part of that effort, we have teamed up with Distrx to provide the community and tourists with an app to help show off all of our awesome businesses downtown!

The Distrx app is a location-based app that alerts you when you've entered a Main Street district. From there, the app lists all the restaurants, bars, retail shops and other merchants in that district. As you enter a participating business, you'll receive valuable offers and promotions direct to your mobile device. The new app is incredibly user-friendly, and makes the whole experience easy and intuitive.

Download the app at the [App Store](#) or the [Google Play Store](#) and start trying it out today!

If you're a business interested in getting on the app, contact us!
